AUDITOR'S REPORT TO COMPTROLLER

*Honorable J. M. Lee, Comptroller,
State of Florida.*

Dear Sir:

We hand you herewith Annual Report showing the financial transactions of the State of Florida for the fiscal year ended June 30, 1938, with comparison figures for the preceding year as is reflected by the records of the Comptroller's Office and reconciled with the records of the State Treasurer's Office.

We hereby certify that Exhibits 1, 2, 2-A, A, B, & C, supported by Schedules 1 to 16, together with the abstract of accounts, correctly set out the balances, receipts and disbursements of the several funds of the State for the periods indicated.

Attention is directed to Exhibits 1, 2, and 2-A which are new features of the report and, we believe, give a readable analysis of the State's activities. Exhibit 1 shows balances, receipts, and disbursements for General Revenue and Miscellaneous Revenue, separately, with amount of decreases and increases for each as compared with figures for 1937. Footnote thereon explains in approximate figures the principal items of increase and decrease in which it is readily seen that diversion of certain funds causing decreases in General Revenue have correspondingly caused increases in Miscellaneous Revenue which, together with new sources of Revenue aggregating some \$9,000,000.00 and extraordinary offsets, loans, and repayments of some \$2,000,000.00, account for the most part for the increase in Miscellaneous Revenue.

It will be noted that there are bills now outstanding and unpaid against General Revenue in the sum of \$977,374.04 occasioned by the lack of funds with which to pay same, and for the same reason several other State appropriations have not been met. Apparent decreases in disbursements for General Government from General Revenue, exclusive of Non-Recurring Legislative Expense and Building Program, are more than offset by the amount of unpaid bills, and the amount of unpaid bills, together with excess of disbursements over receipts, caused an operating deficit of \$1,217,585.79 in that fund.

Counterbalancing receipts and offsets show the sum of \$340,021.48 in total more than similar item of disbursements in total for June 30, 1938 for reason that warrants aggregating that amount were issued against General Revenue Fund payable to State Fire Insurance Fund in June, 1937, and shown as disbursement in that year, but the said warrants were not cleared through the State Treasurer's office until July, 1937, of the current year. Of that amount, \$50,000.00 was to repay prior loan from that fund.

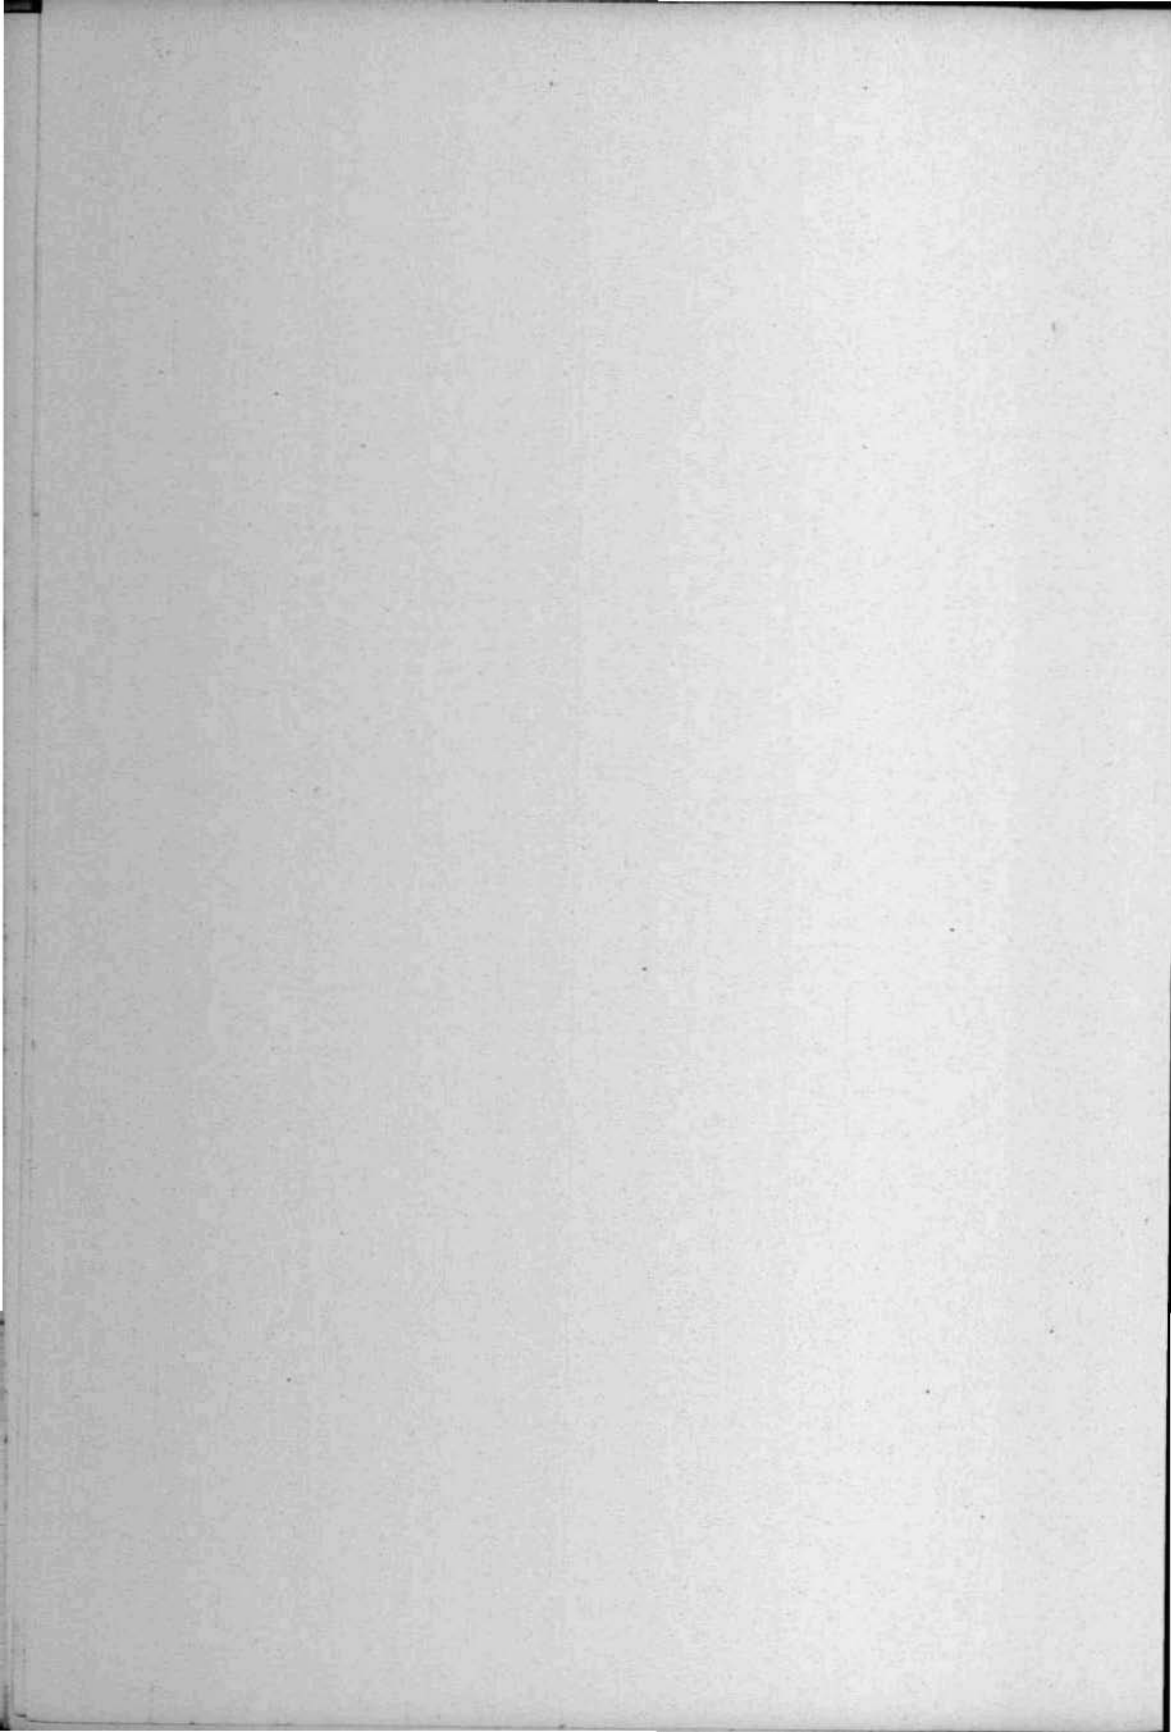

Exhibit 2 is summary of actual disbursements by functions in comparison with similar items of the previous year and Exhibit 2-A gives details of the summary figures showing amounts from General Revenue and Miscellaneous Revenue separately for each function.

Exhibits A, B, & C, with accompanying Schedules 1 to 16, have been reclassified in order to show a more correct comparison of actual receipts and disbursements, necessitating a few changes in the detail (but not of totals) of the figures as appeared in the report for 1937.

Exhibit A shows totals of receipts and disbursements for current and previous year with percentages of increase or decrease. Exhibit B shows receipts and disbursements for current and previous year with percentages of totals and Exhibit C shows receipts and disbursements for current and previous year by departmental classification with percentages of totals while Schedules 1 to 16 give the details of receipts by sources and disbursements by functions.

Respectfully submitted,
C. F. GREENE,
General Auditor.
W. S. MURROW,
Auditor.
